**YAMAHA GENERATORS – HOT SPECIALS**

EF1000iS \$1,390

The Yamaha EF1000iS inverter generator is the ultimate in lightweight portable electricity. The Yamaha EF1000iS - with its inverter system - features Pulse Width Modulation (PWM). That means the Yamaha EF1000iS delivers clean power so you can use them confidently for powering computers, solid-state appliances with built-in computer functions or microcomputer-controlled power tools.

EF2000iS \$1,990

Not only does it outperform the competition... but its quieter, smaller and lighter. Introducing the brand new EF2000iS Inverter Generator, delivering maximum output with minimum effort. The ingenious generator is powerful, portable and super sleek with lots of great features.

EF2400iS \$2,360

Yamaha listened to what their customers wanted when they built this inverter generator. The result is the EF2400iS. Not only is it super-quiet (53-58dBA), it only weighs 32 kgs and produces 2400 watts of maximum power. Cleaner, quieter and more powerful, the EF2400iS is the next step forward in generator technology.
